Conference Schedule 4

Plenary Speakers and Conference “Take-Aways” 5

Group Session Facilitators 10
Dear Conference Attendees,

The Women Moving Forward Committee, its members, and the National Association of Women Judges welcome you to the 2019 conference. This organization is made up of individuals and organizations that work to support the welfare of incarcerated women and their successful return to the community.

This year’s conference has a single focus on mental health. This educational half day will address four areas: Trauma, Building Healthy Relationships, Understanding the Treatment of Mental Health Conditions, and Self-help Tools. An incarcerated person may bring with them the effects of earlier trauma, and the challenges of dealing with various mental health challenges. Understanding how those conditions impact our understanding and our actions will help identify the reasons behind some of our actions. Information about mental health conditions, and how they are treated by with counselling and medications will give insight into treatments inside the prison and in the community. There are tools to help address issues like anxiety, stress and depression which a person can use to improve their own situation.

The Women Moving Forward Committee give the recognition and gratitude to the mental health professionals who have generously given their time to join us today. In addition to our plenary speakers, Alisha F. Saulsbury, Caroline Burry, Denise Smith and Alexandra Wimberly, we have another dozen mental health professionals who will facilitate an interactive discussion in small groups. Their participation will afford you the opportunity to ask questions from trained professionals in a smaller group setting.

The Women Moving Forward Conference website, www.wmfmd.org, contains a wealth of guides to resources in the community. After your release, you will be able to go to the website, and get information to help you locate services and support.

We wish to recognize Warden Chippendale and the staff at MCIW for their work and continued support of the Women Moving Forward conference.

Sincerely,

Julia Weatherly

PLENARY SPEAKERS
Dr. Burry is Associate Professor and Chair of the Families and Children Specialization at the School of Social Work, University of Maryland Baltimore. She serves on an Advisory Board of the International Coalition for Children of Incarcerated Parents. Her research interests include parental incarceration, child welfare, and international social work.

My “Take-Aways” of the Most Important Points Discussed

Healthy Relationships
Ms. Saulsbury graduated from the University of Maryland in 1993 with her Masters of Social Work. Since becoming a therapist, she has practiced on the Mid-Shore of Maryland as an outpatient provider for 25 years where she works with children, adolescents and adults. For the past 20 years she has worked as a trauma-certified, outpatient clinician at For All Seasons Behavioral Health and Rape Crisis Center. In addition to her outpatient work at For All Seasons Rape Crisis Center, she coordinates the Mid-Shore TAMAR (trauma, addiction, mental health and recovery) Program, working in forensic mental health.

My “Take-Aways” of the Most Important Points Discussed

Trauma
A 2002 graduate of the University of Maryland School of Social Work (UMSSW), Denise Smith has refined her clinical practice in the areas of forensic social work, mental health treatment, and social work education. Ms. Smith launched Smith Consulting Group, LLC in 2011 providing forensic social work focused on defensed-based advocacy - giving a voice to truth and restoring dignity to the accused. As a forensic social worker, she develops mitigation reports for use by attorneys in private practice and at the request of attorneys at the Office of the Public Defender and Federal Public Defender for Maryland.

My “Take-Aways” of the Most Important Points Discussed

Treatment
Dr. Wimberly is an Assistant Professor at the University of Maryland School of Social Work. She researches interventions for people with substance use problems and associated challenges such as criminal justice involvement and HIV risk. She is interested in yoga and mindfulness approaches to improve stress coping and support reduced substance use. Her research interests stem from experience working in a jail as a counselor.
